## CREATE YOUR OWN MASTERPIECE!

\* Color this page using markers, paints, stickers, glitter, pencils, crayons and anything else you want to use!

\* Cut-out each picture to make three separate pieces. You can also cut out the quotes and include those in your creation!

\* Glue (or tape) each piece onto a different sheet of paper. You can use colored construction paper, mat-board, cardboard, or anything else you think will work.

\*Most importantly, have FUN making this piece unique...just like you! We really want to see your finished artwork, so be sure to tag us if you post it online!
